## WHAT NOT TO BRING

**Aerosol cans, empty:** Recycle with scrap metal.

**Ammunition and explosives:** Call State Police at 271-3636.

**Asbestos:** Contact a licensed asbestos specialist. Asbestos is hazardous to your health — don't remove it yourself!

**Batteries, alkaline:** Most non-rechargeable batteries (AA, AAA, C, D, and 9-volt) are trash in NH. Tape 9-volt terminals before disposal to avoid fire in your trash

**Batteries, automotive:** Take to auto parts store or your transfer station

**Fire extinguishers:** Recycle empty extinguishers (NRRRA takes from towns)

**Fluorescent lights/ballasts:** May be taken at your town facility. Check with your town. Food Co-ops and Home Depot may take CFLs (spiral bulbs), not tubes

**Latex paint:** Use kitty litter, sawdust, or shredded paper to dry out latex paint; throw in your trash. Empty, dry metal cans may be recycled as scrap metal at your recycling facility. If it says, "clean up with soap and water," it's latex

**Medical sharps:** Place in a rigid container (e.g. detergent bottle), seal cap with duct tape, and label container "**SHARPS — NOT FOR RECYCLING**" Dispose of with regular trash **by handing to a waste collector — do NOT throw in trash**

**Medicine:** See [www.twinstatesafemeds.com](http://www.twinstatesafemeds.com) for police stations taking meds

**Propane or helium tanks:** Propane/helium tanks can be exchanged/refilled at a distributor; or contact town transfer station about empty tanks

**Used motor oil:** Take to town transfer station or a service station for recycling

**Questions? Contact the Upper Valley Lake Sunapee Regional Planning Commission
